

Excellence by Design

hospital & healthcare

A specialist range of Floor Care and Steam Cleaning machines tailored for the special requirements found in Healthcare and clinical establishments. Making extensive use of Steam these units allow cleaning to be combined with an effective sanitising and infection control programme.

Duplex equipment solves cleaning problems in patient and clinical areas such as operating theatres and treatment rooms as well as providing an efficient cleaning solution to other public and support areas such as catering departments, waiting areas and support facilities.

Combine Cleaning with an Infection Control programme
